

Christmas Hampers for Families

This time of year can be extra hard for single women, single moms of young children or teenagers as well as seniors.

An empty cupboard can make the holiday season difficult for families. Many cannot afford food much less gifts or any of the extras that most families enjoy over the holidays

We are hoping with some community support we can provide Christmas Cheer to those families. These Hampers provide much-needed items that these women are not able to have without your support.
